

TEXTRON

From innovation to the arts, we help dreams take flight.

Textron has built a sterling reputation worldwide for its leading-edge aircraft and many other products. But we don't just strive to be leaders in our markets; we also commit to leading in our communities.

The Textron Charitable Trust is a proud supporter of the arts, education, job training, and youth enrichment programs in Rhode Island. Textron's support for **PPAC Arts Scholarships** is a prime example of how we invest in our communities where we work and live.
