

Upgrade Your Device(s)

Mobile Beacon is now operating on the T-Mobile network, which gives our customers access to twice as much coverage as the legacy Sprint LTE network and increased capacity. Mobile Beacon is working closely with T-Mobile during the network migration rollout to protect you and provide you with the highest-quality service. Our customers are our top priority during this transition.

To experience the full benefits of this transition and new network Mobile Beacon is offering FREE solutions to upgrade your current device(s). We are reaching out directly to customers based on who will be affected first by any network transitions. However, we wanted to provide all of our customers with the most up-to-date information regarding the status of their current device(s) in the transition.

Use this tool to check on the status of your device(s) and easily upgrade your device(s) if eligible!

Check Eligibility:

Please copy and paste your full name from the notification email into the form, or enter your **First Name** and **Email exactly** as you did when placing your order. Please email our team at service@mobilebeacon.org with any questions or if you receive an error. Thank you!
